

## FINALIST VIDEO SUBMISSION

Please record a 5 – 10 minute video that includes your ENTIRE School Team (minimum of 3 people, ideally 4 people) and a member of your administration (ideally Principal and/or Assistant Principal). Everyone should speak and as a team, be sure to answer all provided questions.

The creativity and format of the video presentation will not be scored, only the content. If it's challenging to gather everyone in a single space, feel free to use a video call to record your conversation.

In 10 minutes, the video submission should address the following points:

- From School Team:
  - Each team member should
    - Introduce themselves and share their job title at the school
    - Share what they imagine their role in the production would be (Director, Choreographer, Music Director, Stage Manager, Producer, Production Manager).
    - Share what are you hoping to gain from the professional development that Stage Connect offers?
  - What steps will you take to continue doing theatre with your students after year 1 of this program?
  - Producing a school musical is a large time commitment. How will your team balance this project with your required job duties?
  - Musical Theatre is a collaborative art form that offers a unique opportunity for team teaching and modeling positive collaboration for students. How will your team approach team teaching and collaboration?
- From Administrator:
  - Introduce themselves and share their role at the school
  - How do you intend to support your School Team in making this program a success year after year?
  - What is unique about your school, your students, or your community that makes Disney Musicals in Schools: Stage Connect the right program for you?

**Finalists will be notified March or April 2026 and provided with further instruction.**
